

FORKLIFT EXTENSION SLIPPERS

****Forklift Tyne size must be measured to ensure correct fit before ordering****

The FE1 range suits a maximum 100x45mm fork size.

For fork sizes above this (even if you have a 2.5T forklift), you must order the next size up.

For example a 2.5T Forklift fitted with 125x45mm fork size suits the FE2 range.

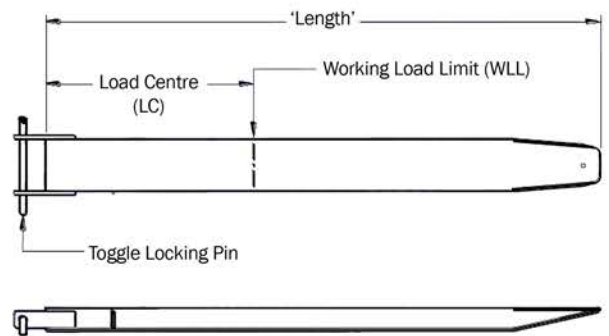

- The slim profile extends the versatility of your forklift
- Supplied with toggle locking pins and rating plate
- Made of a high tensile grade steel
- High working load limit (WLL)
- Made to Australian Standards AS 2359.15
- Supplied with instructions
- Zinc plated finish
- Sold as a pair

****Depending on stock availability, freight from the supplier may be charged as an additional fee****

SAFETY NOTE:

In accordance with AS 2359.15, slippers for general use should be no longer than 167% of the supporting tine's length. If the slippers are longer than 167%, then their usage shall be restricted to the specified application.

***Capacity @ 500mm Load Centre**

Part Number	Length (mm)	Capacity* (kg)	Max. Tine Size (mm)	Min. Tine Length (mm)	Weight Per Pair (kg)	HCG (mm)
